

## TRAINING GETTING STARTED WITH XLSTAT

This training will introduce you to XLSTAT and show you what you need to know to quickly work with XLSTAT and analyze your data. You will learn how to import your data, how to select the appropriate tool from the XLSTAT menu, how to configure a dialog box, but also how to interpret and customize the XLSTAT outputs. The instructor will give numerous examples with real data so that the participants can get familiar with the practice of analyzing data with XLSTAT. At the end of the course, participants will be able to use XLSTAT to quickly find and implement basic statistical methods that suit their own needs.

**Duration:** 2,5 hours (1 day)

**Location:** Online via videoconference

**Price (excluding VAT):**

- Inter-company online training : \$295,00 per participant

**Trainee profiles:**

- Anyone who wants to improve their XLSTAT knowledge

**Required experience:**

- Basic experience using Microsoft Excel

### Main topics covered

- Data import
- Data preparation
- Data analysis
- Reporting

### Training syllabus

- Round table
- Overview of XLSTAT (characteristics, ribbon, main features)
- Data import
- Data preparation
- Exercises and Q&A
- Choosing the appropriate data analysis
- Data selection
- Configuration of XLSTAT analysis (Descriptive Statistics, ANOVA, Linear regression)
- Exercises and Q&A
- Customization of the results sheets
- Customization of XLSTAT charts

## Addinsoft

40 rue Damrémont

75018 Paris

# ADDINSOFT

DATA  
SCIENCE  
MADE  
SIMPLE

- Exportation of charts and tables
- Exercises and Q&A
- Preparation of a dataset for analysis

## Training organization

### Teaching staff:

After experiencing the challenges and needs of data analyst's role in various fields and countries, **Thalia Anagnostou**, Chief Customer Officer at Addinsoft, has been in charge of technical support and pedagogical content creation for XLSTAT and other data software solutions. With a user centric approach, Thalia Anagnostou teaches how to leverage XLSTAT functionalities for any statistical project.

**Online training:** The link to the virtual classroom will be sent by email the week before the course starts.

**Contact:** For further information, you can contact us by email at: [training@xlstat.com](mailto:training@xlstat.com) or by phone at (646) 412 3348.
